DWIKI YULIAN

Game Developer

PROFILE

I am a game programmer with a passion for creating immersive and engaging experiences. I have some experience in developing games for PC Platform. I am proficient in C# and JavaScript, as well as in using tools like Krita, and Blender. I am eager to learn new technologies and techniques to improve my game development skills. I am looking for an intern position at a game studio where I can apply my knowledge and creativity to contribute to exciting and innovative projects.
